

# Gordie's Call Campaign "Pledge to Check"

## Take the Pledge to Check

It's easy to say you "know the signs of alcohol overdose," but are you willing to tell the world that you will intervene, check for the signs, and be the one to make the call for help when you see even one PUBS symptom? If so, take the Pledge to Check.

Be a voice for someone who may not have one.

## Alcohol overdose can have any of these four PUBS symptoms
